

Table de cuisson Ognidove

Freestanding

Code: 5030 241

DETAILS

Coloring Black

Edge/Installation Type Freestanding

Material Ceramic glass

Supply 230V - 50.60 Hz

Dimensions 840 x 350 mm

Base size 90cm

Heating element Three zones

Notes: Rounded edges
Supplied: Schuko electric plug

Total power 3.500 W

Left Ø 240 mm - 2.200 (3.000)* W

Centre Ø 145 mm - 1.200 (1.600)* W

Right Ø 210 mm - 1.500 (2.000)* W

Power settings 9 power settings per zone + Powerboost

Safety Safety equipment

Type Induction Hob

Type of commands Touch Control

FEATURES

End-of-cooking programming All operations are programmed by means of the touch-control on the glass itself. Each cooking plate is capable of independent programming, and thus the possibility to set different cooking times.

Pause Useful function that allows you to distract your attention from cooking, interrupting and restoring the settings immediately.

Pot detector All induction cooker hobs detect the pot resting on them, but they also calculate the area they cover. This system allows the energy to be used even more efficiently. Moreover, the plates switch off automatically when the pot is removed.

Powerboost Booster function provides increased power to the selected plate. In particular, when the Booster is activated, the plate works for ten minutes at a very high power that allows to heat quickly large quantities of water.

Remote control The ceiling suction systems and the Maya hoods are equipped with a remote control to easily activate all their functions from any position.

Safety	All electric cooker hobs feature the most modern and sophisticated safety protections: Centralised power-off function; Child-proof safety lock; Residual heat warning lights. Induction models feature the following functions: Safety System that turn off the hob in the absence of the pot; Overflow detector that automatically turns off the plate in case of liquid overflow; Automatic deactivation to prevent accidents caused by forgetfulness.
Slider commands	The Slider control allows for extremely quick temperature setting: with a light touch of the finger you may select the desired power level on the TOUCH display.
Smart fan system	Correct ventilation is essential for the induction hob to function in the best possible way. The Foster system automatically regulates the amount of ventilation to suit the temperatures reached.
Timer	Independent timer from the end-of-cooking function.
