
OPERA GAZ

Gas hobs

Code: G440 F00

DETAILS

Edge/Installation Type	Flush-mount | Top-mount
Material	AISI 304 stainless steel
Texture	Brushed in line
Supply	220 - 240 V; 50/60 Hz
Dimensions	873x513 mm
Base size	90cm
Heating element	Five burners
Built-in hole	View technical data sheet
Grids	Cast iron grids and enamelled burner covers

Width	87 cm
Total power	9.500 W
Auxiliary	2 x 1.000 W
Semirapid	2 x 1.750 W
Triple crown	4.000 W
Safety	Safety valve with quick-acting thermocouple
Ignition	Electric ignition under knob
Gas type	Tested for installation with natural gas, LPG nozzle set included.
Type	Gas Hob

FEATURES

Cast iron grids	Cast-iron is the ideal material for an hob grid, this due to the manifold properties characterising it: high heat capacity that improves cooking performance; high weight and stability that improve safety; sturdiness that preserves the hob's original aspect over time; easy cleaning.
Precise Power	Flat burners with PrecisePower system: great control in flame-settings. Maximum precision in regulating the flame, thanks to the 10 pre-set levels of the PrecisePower system. And as a benefit, the nice and ultra-low look of the new Flat burners.
Safe cooking	All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.

Special burners	Many Foster hobs are equipped with special burners, with two or three rings of fire that greatly increase the power delivered and the heated surface. In the DUAL models the two fire crowns also have independent ignition, making these burners perfect for both intensive and delicate cooking.
Ultra-flat hob	Design meets functionality in the the ultra-flat models. Elegant grids that form a generously sized overall surface.
Under-knob ignition	The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner.
